Kirby and I have discussed this in the past and would like to get a review of the Councils opinion on placing some signs along 1<sup>st</sup> AVE SE south of Adams to Henderson Road.

Last year, The Council had discussed placing additional reduced speed signs when addressing the School zone signs. Kirby completed placing the School Speed zones around the school to include the route east on Douglas to the foot ball fields. Kirby and I do not recall if it was voted on to continue to place more signs at the parks and/or Permanently change the speed limits to 20MPH at the parks.

Some considerations were regarding excessive speed in the area of the parks during summer baseball and other sports activities. One option was to place speed limit signs or we would suggest considering Warning signs in the Yellow and black - SLOW 20mph children at play symbol. This would just be a Warning not a set speed limit for times that there is no activity.

We both would prefer the councils input:

Which signs: Warnings or Speed limit 20 preferred size/ message

Locations to be placed: 1<sup>st</sup> Ave SE at Four Seasons and should we include Frenzel Park (W Baker Street?)

Attached are examples that Kirby provided. The Lower Left was a suggestion we had.

If this is too late to get on the Agenda maybe it goes on the next Agenda for Feb 3<sup>rd</sup>. ?? Thanks

John

I'd like to add to the agenda, or maybe I just bring it up?, to discuss adding yield signs to uncontrolled intersections along E. Clinton street.  
Thanks.
